**The City of Deadwood's New Website**

In March 2020, the City of Deadwood accepted a proposal from the company Municode to develop a new city website. Municode specializes in website design/hosting for municipalities all over the country.

Over the past five months, City staff has been diligently working together to build a new website from the ground up. The website will have many state of the art features that will include: a new user friendly design, fillable forms, online payments, easier access to public information (Commission agenda's/minutes), an enhanced community calendar, and many other new features which are not available on the current website.

The City is excited to provide this great tool for the citizens, businesses, staff, and visitors.

Look for our new website as we go live on August 3, 2020!

**Deadwood Box Study**

The Deadwood Box is a concrete box structure which supports Highways 14A and 85 and channels Whitewood Creek beneath the highway.

The SD Department of Transportation (SDDOT), the Federal Highway Administration and the City of Deadwood are conducting a study that will evaluate alternate options for the redesign and replacement of the structure and roadway corridor. This is an important undertaking to protect the city's rich history and famous landmarks.

Due to limitations on public gatherings recommended by the CDC, SDDOT is posting information to the study website rather than presenting documents at an in-person public meeting. Members of the public are requested to submit questions or comments through the study website at <https://deadwoodbox.com/> from July 28, 2020 through August 25, 2020.

Your input will aid in the development of study recommendations.

Hot dogs and hamburgers provided. Please bring your favorite dish.

We hope to see you there!

If weather event, the picnic will move to the fire station.

**Treasurers Trash for Cash Annual Garage Sale**

The Annual Treasurers Trash for Cash Garage Sale has been rescheduled for September 12, 2020. For more information, please contact Denese Emanuel at (605) 578-1401.

**2020 Census Update**

The results of the census, which is taken once a decade, help determine how billions of dollars in federal funding is distributed to states and communities every year.

The number of seats each state has in the House of Representatives is determined by the results. They also are used to draw congressional and state legislative districts.

The Census Bureau is making follow-up calls to some households that have already completed the 2020 Census. The goal is to make sure *everyone* in a household was counted, and to validate information provided when they completed the census.

If you have not completed the 2020 Census, please take a few minutes to do so. We need all of Deadwood to be a part of the census.

## Deadwood's Fuels Reduction Program and the United States Forest Service

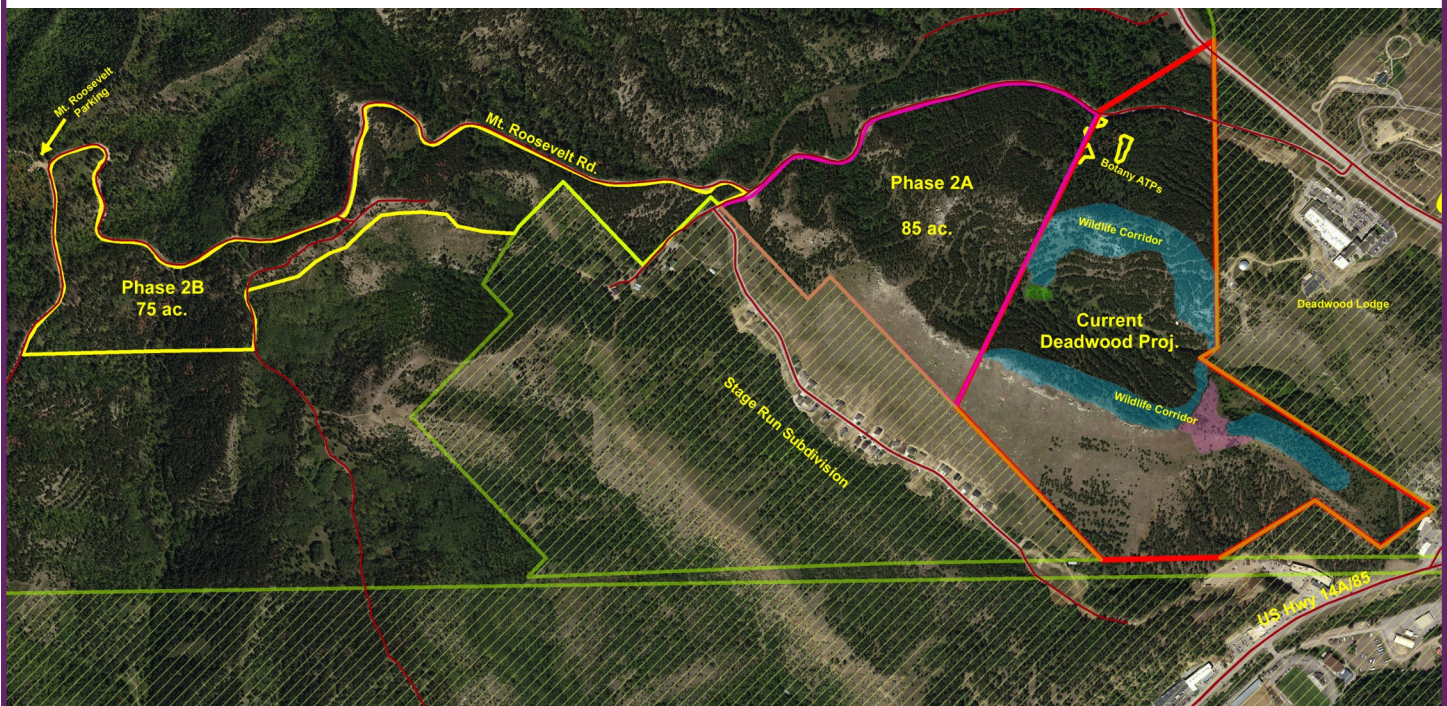

In July, the United States Forest Service Northern Hills Ranger District received funding to continue the Deadwood fuels reduction project adjacent to the Deadwood city limits. Known as Deadwood Fuels Phase II, this USFS project consists of 160 acres of federal lands that border the northern boundary of the Deadwood city limits along Mount Roosevelt Road.

The project will be divided into two areas: Phase 2A is north of the Stage Run subdivision and Phase 2B is south of the Mount Roosevelt Road. This project went out for bid in July and work could begin as early as this fall. The prescription for treatment in this area consists of thinning and hand piling coniferous trees less than 9 inches within the project area.

Piles created during Deadwood Fuels Phase I (Sunrise Mountain beside the Lodge of Deadwood) will most likely be burned this winter, if conditions allow.

Upon its completion, Phase II will help establish a defensible parameter against the threat of wildfire on the northern side of the Deadwood city limits.

### Chamber Corner
