Historic Preservation Program Changes

Effective November 1, 2022, the Historic Preservation Office will implement an application fee for all Historic Preservation Program applications. For owner occupied properties (primary residence), an application fee of \$199.00 will be required upon submittal of an application. If applying for the Elderly Resident Grant only, the application fee is \$99.00.

If you have any questions regarding the programs or fees, please call the Historic Preservation office at (605) 578-2082.

Golf Cart Permits Required

Recently, the State of South Dakota passed a new law that prevents the licensing of golf carts to operate on public roadways. The State does allow municipalities to develop an ordinance and permitting system to regulate the operation of golf carts on public roadways within the city limits, which the City of Deadwood just finalized.

Effective immediately, if you operate a golf cart on the public roadways within the Deadwood city limits, you will need to apply for a Golf Cart Permit through the Deadwood Police Department. If approved, the annual cost for a permit is \$50.00.

If you have any questions, please contact Chief Mertens at (605) 578-2623.

Winterizing Reminders

The City of Deadwood would like to remind residents and property owners to winterize your property before the cold weather and snow arrives.

Below are some helpful tips to protect your property.

- ◆ Detach outdoor hoses from faucets
- ◆ Insulate pipes or faucets in unheated areas
- ◆ Seal off access doors, air vents and cracks
- ◆ Install draft guards to keep heat from escaping under doors
- ◆ Cover unused windows to prevent drafts
- ◆ Have your sprinkler systems blown out
- ◆ Change the furnace filter
- ◆ Clean your fireplace
- ◆ Clean your gutters
- ◆ Vacant properties - keep the property heated or shut off the master water valve and then drain the pipes to keep them from freezing

If you leave for the winter, protect your house in case of loss of heat by shutting off the main water valve in your house or the City's shut off valve.

By offering a hand up, Habitat looks to help close the gap of growing inequality by committing to scaling up their process and working to offer as many families as possible stable housing opportunities.
