On Lead/Deadwood School District's website. From its home page, click on Menu and select Documents from the dropdown window, then the Nuggets and Archives link: <https://www.lead-deadwood.k12.sd.us/documents/nuggets-and-archives/26200>

ABOUT THE AUTHOR

William D. Haas (Bill) has been a researcher, writer and presenter of Black Hills history subjects for many years. His Haas and Pickering ancestors were pioneers to western Dakota Territory, the first having arrived in Deadwood Gulch the summer of 1876. The Haas/Pickering clan has maintained a close relationship with the Adams Museum since it opened in 1930. The lower level of the museum contains the Pickering Haas Exploration Center, family artifacts and the story of the family's long history in Lawrence County. The Homestake Adams Research and Cultural Center (the HARCC) is home to the William D. Haas Research Library. Bill and his two sisters, Sharon Smith and Cindy Griffeth, also funded an endowment in their parent's name to support the K-12 education programs of Deadwood History, Inc (DHI). Bill is a Trustee of DHI and a U.S. Army Vietnam Veteran.

ACKNOWLEDGEMENTS

Feedback from readers of the first version of the booklet, published in February this year, has been very helpful. With that new information and documents, and some additional research several more previously unknown graduates have been identified and added to the lists. My thanks to the individuals who created the original lists, and they are they are recognized in the below section titled "The Research". Much appreciation is also extended to the following people and organizations for their assistance.

Kevin Kuchenbecker, Historic Preservation Officer of the City of Deadwood

Mike Runge, Archivist and Collections Manager of the City of Deadwood

Gary Linn, Librarian of Lead/Deadwood High School

Gloria (Johnson) Burtzlaff, Alumni of the Class of 1958

Jim Williams, Executive Director of Deadwood History, Inc.

Tia Stenson-Cunningham, Archivist of Deadwood History, Inc.

THE RESEARCH

This project got its start from a conversation I had with Larry Karns, a 1961 graduate of Deadwood High School. We met at an event at the Adams Museum in Deadwood in September of 2023 and Larry gave me a small booklet that listed the names of the graduates of Deadwood High School. He said it was his understanding that sometime before 2017, Don Ondriezek of the 1947 Class had gathered the names from the original Master Records of Deadwood Schools and typed up a list of them by class year.

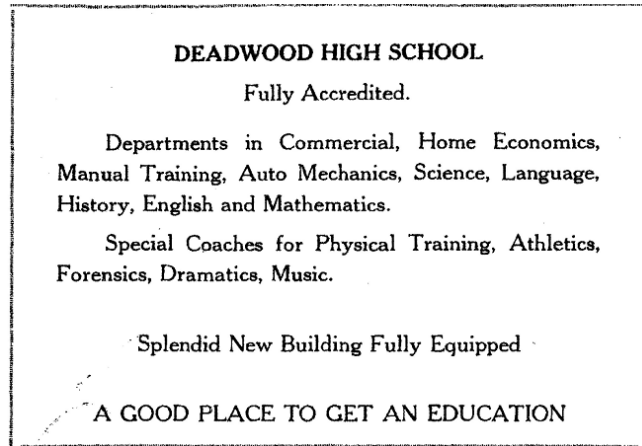

Several similar lists were found during the research. One was in the HARCC archives and another was on the Deadwood Historic Preservation Commission website on its Deadwood High School History page. Gary Linn, the librarian of the Lead/Deadwood High School, point me to a third one that was in the school's on-line archived files. This last one's author was Helen Morganti, Director of Public Relations for Lead/Deadwood Schools, 1964-1980. Starting with those old lists, I began the research into the history of Deadwood's schools and its high school's graduates.

THE BASICS

The lists below contain the names of 2411 graduates of Deadwood High School. The first recorded graduating class was in 1886, and the last was in May of 1971. Numerous newspaper articles during the late 1960s reported the problems of declining enrollment and funding that were impacting Deadwood's schools. Various town meetings were reported to have taken place and several solutions had been proposed to Deadwood voters. None of those proposals managed to get the required votes and the State Education Commission finally got involved. The decision was made to dissolve Deadwood's school district. The Lead School District would expand and takeover the facilities, assets and students of Deadwood's schools following the end of the school year in May 1971. Deadwood's high school students would begin attending classes in Lead starting that fall. The Deadwood High School building on Main St. would be reconfigured to house both the Lead/Deadwood Elementary School and the Middle School.

As reported in the March 1971 issues of Lead High School newspaper, *The Nugget*, some joint afterschool activities involving students from both high schools were already underway in preparation for the coming merger. These included practices of fall sports teams and tryouts for the Lead/Deadwood cheerleader squads. Class elections for the coming year's student council of Lead/Deadwood High School were held in April 1971. The Deadwood nominees were reported to have taken all three of the top posts, according to the April 30, 1971 issue of *The Nugget*. Even such matters as who was eligible to wear Lettermen's sports jackets and which school's logo could be worn on the jackets during the coming year were worked out by members of the sports clubs of the two schools.

Both of the lists included in this booklet contain the names of all 2411 of the graduates. List #1 begins on Page 16 and has them listed alphabetically by last name with their year of graduation noted. List #2 starts on Page 50 and has them grouped by graduation year, sorted alphabetically therein. There were no graduates for the years 1890, 1892 & 1894. The 1926 Deadwood High School yearbook contained the information box seen here. It notes the departments and general subject areas of instruction offered at the school at the time. The Commercial Department offered a Stenography Diploma for students completing a two-year course of instruction in shorthand, sometimes referred to as Commercial Degrees. Unless those students also completed their overall 12th grade requirements, they weren't considered high school graduates and were not on the old lists, and thus are not included in the below lists.

CORRECTIONS TO THE INFORMATION ON THE OLD LISTS.

All three of the previously noted old lists indicated the graduates' names had been copied exactly from School Master Records, and acknowledged there were some name duplications. Therefore, I believe that most of the missing names, errors, misspelling and other problems uncovered during my research likely existed in those original school records.

The additions, deletions and corrections I have made were done through a careful vetting information from other sources. Those included family trees on Ancestry (www.ancestry.com), state and federal census records from 1850-1950, newspapers articles (www.newspapers.com), the archives of the City of Deadwood, the HARCC archives and Lead/Deadwood school district records. The principle changes made to the information from the old lists are shown below.

Angeline Caretto was on the old lists in both the 1936 and 1938 graduating classes. I located her obituary in the March 22, 2004 issue of the *Rapid City Journal* and it states she had graduated in 1938. A search of 1936 newspapers uncovered an article on page 4 of the June 4, 1936 issue of the *Weekly Pioneer-Times*. It listed the names of all 46 graduates of the 1936 class. Angeline's name was not one of them, however, a Catherine Louise Caretto was listed (misspelled Katherine in the article). Information found in family trees on Ancestry and in federal census data confirmed Catherine as being Angeline's older sister. Further, Catherine's birth in December of 1917, noted in several documents, is consistent with her graduating from high school in 1936. Angeline's name in the 1936 class appears to have simply been an error. Her name has been removed from the 1936 Class and Catherine's name has been added.

Robert Ahl was on the old lists in both the 1963 and 1964 graduating classes. A newspaper article on page 2 of the July 31, 1963 issue of the *Black Hills Weekly* reported that ...“Gary Stadel, Robert Ahl and William Kotila plan to leave for Ft. Leonard Wood, Mo. on Thursday. Graduates of Deadwood High School this year, they have joined the National Guard and will begin a six month training course”. That provides good evidence that Robert graduated in 1963 with his two classmates noted in the article, and both of them were on the old lists for the 1963 class. Robert’s listing in the 1964 class was an error, and that has been corrected in the below lists.

Etta Rickel’s name did not appear on any of the old lists of graduates. However, her name was found in the June 10, 1899 issue of the *Daily Deadwood Pioneer-Times* newspaper, in an article about the prior evening’s graduation ceremony. Miss Rickel is noted in the article as receiving her diploma along with her four classmates. The article also included the full text of her senior class paper, titled “Class History”. The above provides solid evidence of her having completed high school and she has been added to the 1899 Class.

Katherine (Kate) Goodrich is another student whose name didn’t appear in any graduate list, although her older brother Fred was listed in the Class of 1900. She was noted in a number of newspapers articles between 1898 and 1907 about her attending Deadwood grade school, graduating 8th grade in June 1902, and about her participation in high school plays and singing with her senior class. Further research found an article in the July 25, 1907 issue of the *Daily Deadwood Pioneer-Times* about her mother’s death the prior day, Celia Goodrich. It said that among Celia’s survivors were her daughters ... “Mrs. Laura Kercheval, who had been a constant attendant on her mother for three months, and Miss Kate Goodrich, who graduated from Deadwood High School this spring”. Further, a long obituary of Celia appeared the next week in the August 1, 1907 issue of the *Weekly Pioneer-Times*. It stated that daughter Kate ... “had attended the high school for the past four years”. The above information seems to provide sufficient evidence of her finishing high school and graduating, and Kate has been added to the below lists as a 1907 graduate.

Joan Hoy, was not on any of the old lists. However, the 1956 *Bear Log* yearbook did contain the name Joan Hay as a graduating senior. Further research also found her noted in several newspaper articles during 1956 related to her school activities. This appears to have been a simple misspelling of Miss Hoy’s last name in either the old records or their transcription. Miss Hay’s name was been removed and replaced by Miss Hay in the 1956 Class on the lists below.

Shirley Jean Ruth is another 1956 graduate that was not in the old lists, but she is shown as a senior in the 1956 *Bear Log* yearbook. I was also able find several 1956 news articles, some just a week prior to the May 1956 graduation ceremony, that noted her working in the senior plays and receiving recognition for excellent school attendance. The above information is sufficient to support her graduation and her name has been added to the 1956 Class in the below lists.

Patty Baumberger was not on the old lists of 1971 graduates, which contained 63 names. However, the May 22, 1971 issue of the *Deadwood Pioneer-Times* carried the photos and/or names of 64 seniors who would be receiving their diplomas the coming Monday evening, and her name and photo are shown in the article. It appears that she accounts for the difference in the number of

1971 graduates between the old lists (63) and the newspaper article (64). I believe the above is sufficient evidence of her graduation and she has been added to the 1971 Class on the lists below.

The 1947 class offered some interesting challenges. The old lists contained 28 graduates. The May 27, 1947 issue of the *Lead Daily Call* carried an article that listed the graduates who would receive their diplomas that evening, and it contained 28 names and their photos. A similar article appeared three days later in the May 30, 1947 issue of the *Black Hills Weekly*, which again listed 28 names. However, none of these three sources agreed as to who was in that graduating class. The following are the four individuals I identified as being involved with these differences.

Stephen (Andy) Gomez is on the old lists as a 1947 graduate, and that seems to be consistent with information found in several later news articles about his life. However, neither his name nor his picture were included in either of the above two 1947 newspaper articles. Other news articles in 1947 during his time as a senior indicated he was a school athlete and a good student. Since the listed names in two newspapers didn't agree with each other, it appears they had different sources, both of which were wrong. No information was uncovered during the research that disputed Stephen's graduation, so his name remains on the below lists as a 1947 graduate.

Irene Haefs, name was on the old lists in the 1947 Class, but she was not listed in either of the above May 1947 news articles. This problem was resolved when I found the answer as to why Miss Sorensen, see below, was listed as a graduate in the news articles but she was not on the old lists.

Irene Sorensen's senior photo and/or her name were shown along with her classmates in both the above May 1947 newspaper articles, and as noted above, she was not on any of the old lists. I eventually found a March 1947 newspaper article about her marriage. This newspaper announcement reported that Irene had just gotten married in Broadus, Montana to Ervin Haefs. This was two months before her graduation. That provided the answer as to why Miss Sorensen's name was not on the old lists. Irene Haefs' name remains on the below lists as that was her last name at the time she graduated.

James Cummings' situation presented a bit of a dilemma. His name was on the old lists as a 1947 graduate, but he was not listed in either of the above May 1947 newspaper articles. Further, the May 23, 1947 issue of the *Black Hills Weekly* reported that he had just returned from Sioux Falls, having represented Deadwood High School there in the State track finals. Ancestry family trees and census records show he had lived on the Standing Rock Indian reservation with his family until they moved to Deadwood about 1945-46. His marriage announcement in the September 19, 1949 issue of the *Lead Daily Call* said his wife graduated from Lead High School, that he had attended St. Elizabeth Mission School (at Standing Rock), and further, it stated he "*was graduated from Lead High School*". I was not able to find his name in any of the Lead High School records or *Lead Nugget* yearbooks between 1945 and 1950, or anything information as to him having attended or graduated from Lead High School. I believe the above September 1949 newspaper article and its odd statement of "*was graduated from Lead High School*" was a reporter's error. All the other information found supports him attending Deadwood High School as a senior, and

shows that he was at school through at least the week prior to the 1947 graduation ceremony. Therefore, his name will remain on the lists as a graduate of the 1947 Class.

Emmerich H. Mayer's name was not on any of the old lists. Shortly after the first version of this booklet released and placed on the Deadwood Historic Preservation website in February 2024 I received an e-mail from Emmerich. He wrote from Austria, and said he had been an AFS foreign exchange student and had graduated from Deadwood High School in 1968. As proof he attached a copy of his graduation diploma along with a copy of the the program from the ceremony which listed all the graduates of that class. That helped identify three other graduates of that class who had not been shown on any of the old lists. They were Robert D. Ford, David Adrian Weisenberg and James Windedahl. I also found Ronnie W. Robley listed in that program as a 1968 graduate. Robley had been shown in the 1969 class on the old lists. All five of these students are now included in the below lists as 1968 graduates.

Eleanor Rich, Class of 1925, was shown with three different spellings of her name among the old lists, Eleanore Richards; Eleanor Richards; and finally Eleanor Rich. The Deadwood Historic Preservation's website had a copy of the *1925 Oracle* yearbook. In it I found her senior photo and name, spelled Eleanor Rich. Following that spelling I located a marriage announcement in the June 4, 1935 issue of the *Deadwood Pioneer-Times*, noting her marriage the prior week in New York City. It also had her name spelled Eleanor Rich. Given the spelling in both the yearbook and the marriage announcement, that appears to be her correct name and that is how it is now shown on the below lists.

Francis Holsten was on the old lists as a 1926 class graduate. However, as I was researching another student in that class I ran across some information about Francis that seem a bit odd. There were two rather obvious issues. The first was that that neither his name or photograph were shown on the Senior Class pages in the 1926 Deadwood High School yearbook. His name was also not on the listing of the 1926 class on page 25 of that yearbook. The second issue was that he was born in 1903, which would mean he would have been 23 years old in 1926. I thought maybe his age was in error, but I found that his listing in every federal and state census from 1910-1940 had his birth as 1903. Further research found his name and photograph in the Junior Class in the prior year's yearbook, *The 1925 Oracle*. I also found in the HARCC archive his 1st grade graduation certificate dated June 3, 1910 at age 7. Based on that, he would have been expected to graduate high school in about the spring of 1922. His 1915 South Dakota State census card (dated June 1915) shows him as 12 years old and had just completed 5th grade, so it had taken him an extra year to complete his 2nd – 5th grades, pushing an expected high school graduation out to 1923. Since he supposedly graduated in 1926, it appears his progress through school was delay an additional three years between finishing 5th grade in 1915 and before he started 11th grade in the fall of 1924. The 1920 federal census, taken in February that year, included the question ... "Attended school at any time since September 1, 1919". Francis' box is blank, meaning No, and the box for his younger brother Norman contained "Yes". Norman was born in 1905, and is a 1924 graduate. That same 1920 federal census noted Francis was employed as a blacksmith's helper (his father was a blacksmith). That census information accounts for one of the missed years of schooling. I was not able to find any information as to the causes of the other two years of

school he missed prior to starting 11th grade in the fall of 1924. So, the question we are left with is ... At the age of 22, did he start 12th grade and then graduate? If he did start 12th grade, it doesn't appear that he graduated. As noted above his name is not in either of the two locations it should have been in the 1926 yearbook. It could be argued that he may not have been at school the day the senior photos were taken. However, another student, Martin Culbertson, apparently missed the senior photo day, but his name on both the senior photo pages and on the list on page 25. My conclusion is that Francis did not graduate, although he might have started 12th grade, which could explain his name being on the old lists from the school records. Therefore, his name has been removed from the 1926 Class in the below lists.

Junior, meaning students with that as their name was the next item I examined. There were six of them among the graduates on the old lists, and it seemed unlikely that was actually their name. I did some research and managed to determine the real first name of all six of them. There was actually one graduate, Junior F. Miller, Class of 1926, who had the first name of Junior. It was so shown on his marriage license and on his WWII draft registration card. The problem I was left with concerning the other five "Juniors" was the realization that it was likely that was the name they were known by in high school. I also found that a couple of them had been reported by the name Junior in newspapers for a few years after high school. I finally decided to compromise, and leave their first name as Junior on the graduate lists and provide their full legal names here. They are: Earl Gilbert Culbertson, Jr., Class of 1935; Ira H. Young, Jr., Class of 1938; Nestor A. Erickson, Jr., Class of 1944; Christian Heil, Jr., Class of 1940; and Charles A. Keene, Jr., Class of 1940.

Last items regarding changes to the old data. There were a number of graduates in the old lists with first or last names that appeared to have been misspelled, and a couple of students were listed with their first and last names reversed. There were also a few students whose last names were spelled a bit different from what appeared to be their siblings listed in other graduating classes. I also found, from newspaper listings of graduates, some students who were listed by their middle name instead of their legal first names. In this last case, I have listed their first name as shown in the old records as that is likely the name by which they were known. Where the names listed in the old records were determined to have been incorrect or misspelled they are now correct in the below lists.

EARLY HISTORY OF DEADWOOD SCHOOLS & DISTRICT

The following information about the early schools in the Deadwood Gulch area has been gathered from newspaper articles, old stories, historic markers, and other information found in the archives of the HARCC and the City of Deadwood.

Efforts to organize the schools in the Deadwood Gulch area began in the summer of 1877, several months after the Dakota Territorial Legislature created Lawrence County's governmental organization that February. News articles during 1877 and later reported several small grade school

and one-room school houses in operation up and down The Gulch, from the Two Bit Canyon area on up to near Central City, some noted as being conducted in churches and fraternal halls.

One of the early meetings about a school district in Deadwood took place the evening of August 5, 1877, reported the next day in the *Black Hills Daily Times* and the following day in the *Black Hills Champion*. C. E. Hanrahan was elected to chair the meeting (he was noted in the articles as being the Superintendent of Public Schools for the new county). The reported minutes of the meeting said the meeting was for the purpose of gathering a sense of the attendees regarding organizing a school district in Deadwood and related matters. Another meeting took place the following week on the evening of August 13, 1877, the minutes being reported the next day in the *Black Hills Daily Times*. That article said Judge Barker presided and W. J. Sidway was elected the Board Secretary. The news article reported that a motion was approved by the board which empowered it to borrow and raise, in anticipation of the collection of taxes, any money necessary to make the first payment on land for a school. The minutes also noted that the board said it had all the rights necessary to purchase land and seek bids for the construction of a school building.

There is conflicting information as to when the schools in Deadwood officially became Lawrence County School District #2. Newspaper articles, starting in 1877 and continuing, reported the school organization was referring to itself as District #2. However, the inscriptions on historic marker in front of the 1924 high school building say Deadwood schools became the second established district in the county in 1881. Further, the June 28, 1971 issue of the *Lead Daily Call* carried a long article about the history of Deadwood schools. The article said that in 1882, an official Deadwood Board of Education was established and all schools and districts operating in and around Deadwood were ordered to turn over all monies and other assets to the City of Deadwood. These different reported administrative entities and creation dates of School District #2 may be due to the odd situation that had resulted from the formal establishment of Lawrence County and its government in February 1877, noted above. That action had effectively put the existing town government of Deadwood and its officials out of business, and left Deadwood and its residents under the sole jurisdiction of the officials of the new county for the next four years. It wasn't until February of 1881, when the official incorporation of the City of Deadwood was approved by the Dakota Territorial Legislature, that Deadwood was recognized as a legal entity by Lawrence County. Regardless, newspaper articles starting as early as 1877 indicated Deadwood's school board was receiving a share of tax revenues and other government funds, so it must have had some type of recognized legal status well before 1881.

Several newspaper articles between 1877 and 1879 reported on plans, bids and the construction of schools. They noted that the first buildings were cheaply constructed wood frame structures intended for temporary use, some for periods as short as 6-12 months. This was reported to be due to plans underway for more permanent type facilities to handle the rapidly growing school age population. It appears from a few articles that some high school level instruction may have begun in 1879, although it wasn't noted as to where those classes might have been conducted. Mr. Lewis, a school principal who appears to have also been providing some high school level instruction, was noted in a March 19, 1881 news article in the *Black Hills Daily Times*. He was reported to be complaining that there was no high school to which he could promote his intermediate level students.

The first mention I found about a high school building was in an article in the August 27, 1881 issue of the *Black Hills Weekly*. It said a contract was being issued to build what was referred to as “*the high school house*”. It was to be constructed next to Whitewood Creek near the mouth of Deadwood Creek. Subsequent news articles reported that: it opened in January 1882; that it wasn’t a large building; and also indicated it housed the school district’s administrative offices. A building said to be built specifically for a high school opened in 1899, according to an article in the June 11, 1899 issue of the *Daily Deadwood Pioneer-Times*. The next high school building was reported to have been completed in 1904, left photo below. This appears to have been an expansion of the existing 1899 building. Late December 1924 newspapers reported on all the fanfare surrounding the placement of the cornerstone of a new, larger high school building being constructed in about the same location, next to the Franklin Hotel, right photo below.

The Historic Preservation Commission has erected an information marker in front of that building. The back cover of this booklet contains a picture of the marker and a transcript of its inscriptions.

OTHER SOURCES OF STUDENT & SCHOOL INFORMATION

The Deadwood Historic Preservation Commission’s website has scanned copies of some of the Deadwood High School yearbooks, *The Bear Log*, and some of the earlier school senior newspapers issues that included graduates. These are for the years 1925, 1926, 1942, and 1951-1957. These are in a convenient Acrobat PDF file format, so you can download any of them and print any portion for personal use. Please check with Historic Preservation as to any copyright restrictions for commercial use. These yearbooks can be found at:

<https://www.cityofdeadwood.com/historic-preservation/page/deadwood-high-school-history-1886-1971>

Gary Linn, the librarian of Lead/Deadwood High School, is currently in the process of scanning all the Lead and Deadwood high school yearbooks they have in the school's archives. He said this will be completed in the near future, and those digital files will be uploaded to their High School History webpage. The Deadwood's Bear Log yearbooks currently in their archives are for the years: 1946-1957, 1959-1968, 1970 & 1971. If anyone has any other years of the older Deadwood High School Oracle or Pioneer yearbooks or any year's *Bear Log* yearbooks not noted above that they would be willing to loan to Gary so they could be scanned, please contact him.

Dick Dunwiddie, Class of 1954, administers two Facebook groups, "*Historic Deadwood Schools before 1972*" and "*Historic Deadwood.When*". They contain many posts, photos and related information and are good places to post questions and exchange information.

SOME BITS OF RELATED TRIVIA

The following is some interesting information and trivia extracted from the research findings.

Dr. W.F. Jones, head of the Department of Education, South Dakota State University at Vermillion, addressed the 1913 graduating class at their June 12, 1913 commencement ceremony, reported the next day in *The Weekly Pioneer-Times, Mining Review* issue. He commented about how significant their accomplishment was, and compared it to the 3 million U.S. children who had started grade school the same time as they had, in about 1900. Using the statistics he presented, it worked out that of every 1000 children who had started 1st grade, only 4-5 (about ½ %) reached the 12th grade, and fewer still actually graduated.

Concerning the sizes of Deadwood High School's graduating classes, the smallest was in 1900, with just one graduate, and the 1895 and 1898 classes each had only two graduates. The 1886, 1891, 1893 & 1898 graduates were all girls. From 1901 and until about 1922, graduating classes hovered between 15-25 members annually. Class sizes grew during the following 20 years, reaching 55 graduates in the 1942. The December 1941 entry of the United States into WWII had a dramatic impact on high school attendance, and graduating classes dwindled down to just 22 by the end of the war in 1945. A recovery began in 1947, and by the late 1960s yearly graduates exceeded 60. The largest class in the school's history was in June 1970 with 70 graduates.

Looking into common names among the graduates, the most popular first name for girls was Mary, there were 49 of them. Next was Margaret at 27, followed by Betty and Dorothy with 24 each. For boys, the most popular name was Robert/Bob, 50 of them. Next was James/Jim at 48, followed by John at 37. There was one young lady in the 1937 graduating class who had the very inviting first name of Welcome. As for last names, Johnson led the list with 28 and Thompson was next at 17. I thought it was quite a coincidence that the 1958 Class had a Sears and a Roebuck. And found among the students of the tiny 1899 graduating class were a Bullock and a Hickok, rather notable names in Deadwood's history. A search of family trees on Ancestry found that the boy was Stanley S. Bullock, the son of the famous Seth Bullock. While the girl, Grace Hickok, wasn't related to Wild Bill, at the time of her graduation she also received Stenography diploma.

A FEW OF THE NOTABLE GRADUATES

The lives and careers of Deadwood High School graduates was also something that caught my interest. There were a surprising number of stories found in the newspapers over the years about the activities of former graduates of Deadwood High School. These covered local businesses, charity work, government administration, law enforcement, and other notable accomplishments and contributions they made to their community and generation. The following are just a few of these people.

Found among the men:

Nathan Franklin, Class of 1887, was the son of the founder of the famous Franklin Hotel, Harris Franklin. Nathan went on Notre Dame University for two years, returned to Deadwood, passed the State Board of Pharmacy exams in 1891 and became the proprietor of the Palace Pharmacy in town. After 10 years he sold that business and went to work for the American National Bank in Deadwood. When the bank became the First National Bank in 1905 and he was selected to be its president. Nathan was elected Deadwood's mayor in 1914.

Edward Keene, Class of 1929, was elected Deadwood's mayor three different times, in 1956, 1964, and 1974, serving a total of 16 years. He had also been the town's street commissioner and the fire chief.

Jim Shea, Class of 1940, was elected the mayor in 1968, and at one time he and his wife, Lillian Salmo, Class of 1931, operated the Trial of Jack McCall theatrical production in town. He was also the commander of Deadwood's VFW post in 1947.

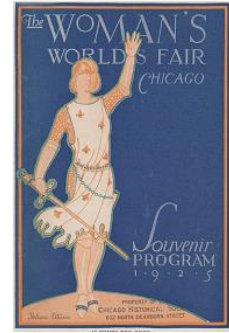

Charles Crotty, Class of 1956, was elected the Sheriff of Lawrence County in 1975 and served in that position for 20 years.

Fred Maynard, Class of 1960, was appointed Deadwood's chief of police in 1970, and his brother, Frank Maynard, Class of 1963, was appointed the police chief the next year.

The notable women included:

Helen M. Bennett, Class of 1888, graduated 3 months shy of her 16th birthday. She went on to have a pretty amazing 75 year career, encompassing education, journalism and women's rights. After high school she taught at Deadwood grade schools while attending the two year teacher's course at Dakota Territorial Normal School in Spearfish (today's Black Hills State University). In 1898 she graduated from Wellesley College in Massachusetts, returned to Deadwood and was elected the Superintendent of Lawrence County Schools in 1900, serving four years. Helen became a local reporter for the *Weekly Pioneer-Times* and the *Lead Daily Call*. In December 1908, the *Lead Daily Call* reported she was reviving A.W. Merrick's original journal, *The Mining Review*, and would be its editor. In 1910 she was again elected Lawrence County's Superintendent of Schools. One of her noted writing is a 40 page pamphlet titled "*The Truth about the Black Hills*", published in 1907 and still referred to as a reliable history reference. Helen had moved to Chicago by 1920 and opened a business to help young college women find jobs. She and Ruth McCormick conceived of and organized the first Woman's World Fair in Chicago that opened in 1925, see

<https://www.mc-2.com/the-1925-womans-world-fair/>. While Helen was in Chicago she was also a reporter for the *Chicago Record-Herald*, and wrote articles for publications around the country. Throughout her life she was an active feminist. In 1933 Helen was appointed the Executive of the Social Sciences Division of the 1933 Century of Progress International Exhibition (AKA, the Chicago World's Fair). As a side note, her father, Granville G. Bennett, was one of the first federal judges assigned to the Dakota Territory Supreme Court. He was also the presiding judge at Jack McCall's 1877 trial in Yankton for the 1876 murder of Wild Bill Hickok.

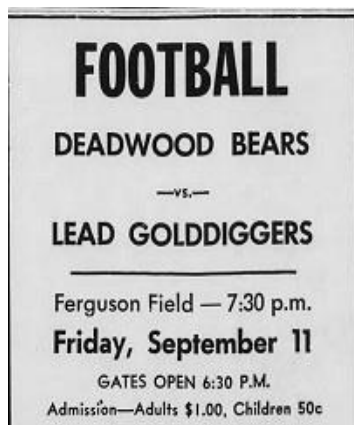

Taffy Tucker, Class of 1967, had a very successful business career. She married Orville (French) Byran in 1970 while they were attending college at Black Hills State in Spearfish. That same year they bought the rights to the Franklin Hotel's restaurant in Deadwood. Shortly thereafter they partnered with a group of others, bought the rest of the hotel and spent the remainder of that decade restoring it. While that was going on, French was elected Deadwood's mayor in 1977. Taffy and French bought the Queen City Hotel in Spearfish in 1993 and converted its first floor into the Bay Leaf Café. That restaurant became a community icon which they operated for 24 years until they retired in 2017. During that same period Taffy owned and operated "Guides to Go", providing tour planning and guides to Black Hills tourists and related businesses.

Genevieve DuChene, Class of 1929, graduated at 16 years of age with the highest grade point average in her class. Genevieve (married name Akrop) is among the honorees on the Wall of Fame at City Hall, and her contributions to Deadwood and its history are noted on the Historic Preservation Commission's website, see link below. Two other graduates of Deadwood High School are also honored on the Wall: Carlton Groder, Class of 1915; and Fred Borsch, Class of 1918. <https://www.cityofdeadwood.com/hpc/page/deadwood-wall-fame>

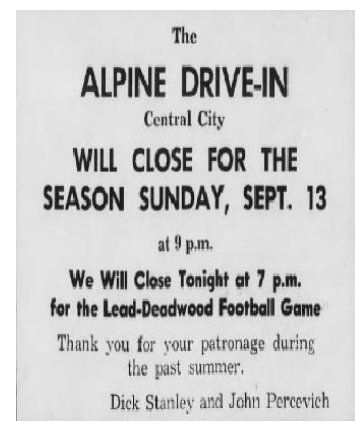

AND ONE FINAL ITEM ... **THE BIG GAME**

There's an event from Deadwood High School's history that definitely needs mentioning, and its one I can write about from personal experience. It was the last football game between the Deadwood Bears and the Lead Golddiggers, played the evening of September 11, 1970. This

annual gridiron classic took place on Ferguson Memorial Field next to the Days of '76 rodeo grounds. Deadwood High School's merger into Lead was already set to take place at the end of that school year in May 1971.

The ad for the game, seen at the left was in that morning's issue of the *Lead Daily Call*. On the same page was the notice at the right from the Alpine Drive-In. Dick and John, the owners of

this popular Central City eatery, had apparently concluded well before hand that most of their regular Friday evening customers would be attending the game, and thus it made business sense to close early (or *maybe they just wanted to go to the game*). A few of the Golddiggers' fans had decided this might be their last opportunity to taunt their archrival of countless decades. They brought a huge banner that they waved around during the game. It read ...*“If you can't beat us, join us”*.

My cousin Gloria and her husband, both Class of 1958, and my wife and I were among the Deadwood fans huddled together in the stands that Friday evening. We came prepared for the expected 40° temperature with warm gloves, jackets and blankets. And, yes, there were more than a few fans (*not admitting whom*) armed with flasks and bota bags of “medicinal anti-freeze” that were surreptitiously passed back and forth beneath the blankets. The first half of the game favored Lead, but as the 3rd quarter edged toward a close, the Bears finally scored, making it 12 to 6 in favor of the Golddiggers. However, a failed onside kick by the Bears and a later interception resulted in the Golddiggers converting both opportunities into touchdowns. The final score was Lead 26, Deadwood 6, and the coveted Jaycee's traveling football trophy was awarded for the very last time.

LAST COMMENTS

This project has been one of the most interesting research adventures I've been on concerning Deadwood's history. Hopefully this information brings some fond memories and will be useful to genealogists and future researchers of Deadwood and its high school. Feedback from the first version was really appreciated. If anyone has any additions or corrections to the graduate lists, please send them to me via email at: billscobra@gmail.com, and include any information you may have as to the information's source, even if its just first hand personal knowledge.

Bill Haas

A TRAIL TO DEADWOOD'S PAST

School District #02
1881 - 1971

The establishment of higher education is an important benchmark in the development of a community, and Deadwood was no exception. In 1881 Deadwood became the second established School District within Lawrence County, Dakota Territory. In the ensuing years after the district's incorporation, two grade schools and a high school were constructed and operated in three of the four city wards:

First Ward: grade school - Burnham Hill; Second Ward: high school - upper Main Street;
Fourth Ward: grade school - Jackson Street

Throughout its 90 years of existence, the Deadwood School District, its educators, and the community persevered through fires, floods, and financial difficulties - a testament to the importance of educating its children. The first high school graduating class occurred in 1886 and consisted of six students: Annette Forest, Belle Chase, Estelline Bennet, Irene Cushman, Mamie Philips, and Minnie Craig. In the 1920s the school body adopted the bear as the official school mascot. The Deadwood High School Bears became a powerhouse in western South Dakota winning numerous academic and athletic competitions attributed to students and the school faculty's dedication to higher education and school pride. As Deadwood's community grew, so did the School District. The school campus underwent building expansions in 1899, 1904 and 1925.

In the 1960s the Deadwood and Lead School Boards began discussions to merge the two neighboring school districts based on a decrease in funding and student enrollment. The 1971 DHS Seniors were the last graduating class in Deadwood. The following year, Deadwood's High School building was converted into the new Lead-Deadwood Elementary and Middle School. In 2004 a brass plaque commemorating the DHS students was mounted on the side of the school building. Today, the elementary school campus is all that remains of School District #02 in Deadwood Gulch.

Color postcard of Deadwood's High School campus, circa 1910.

1941-1942 DHS students at front entrance to school.

HOME OF DEADWOOD HIGH SCHOOL 1924 - 1971
THE COMMUNALITY OF DEEDWOOD, DAKOTA
DONATED BY THE DHS CLASSES OF 1954 & 1955

Brass plaque donated by the DHS Classes of 1954 & 1955.

The above historic marker is located in front of the old high school building at 716 Main St.

The following is a transcription of the above marker's text.

"The establishment of higher education is an important benchmark in the development of a community, and Deadwood was no exception. In 1881 Deadwood became the second established School District within Lawrence County, Dakota Territory. In the ensuing years after the district's incorporation, two grade schools and a high school were constructed and operated in three of the four city wards: First Ward: grade school - Burnham Hill; Second Ward: high school - upper Main Street; Fourth Ward: grade school - Jackson Street."

"Throughout its 90 years of existence, the Deadwood School District, its educators, and the community persevered through fires, floods, and financial difficulties - a testament to the importance of educating its children. The first high school graduating Class occurred in 1886 and consisted of six students: Annette Forest, Belle Chase, Estelline Bennet, Irene Cushman, Mamie Philips, and Minnie Craig. In the 1920s the school body adopted the bear as the official school mascot. The Deadwood High School Bears became a powerhouse in western South Dakota winning numerous academic and athletic competitions attributed to students and the school faculty's dedication to higher education and school pride. As Deadwood's community grew, so did the School District. The school campus underwent building expansions in 1899, 1904 and 1925."

"In the 1960s the Deadwood and Lead School Boards began discussions to merge the two neighboring school districts based on a decrease in funding and student enrollment. The 1971 DHS Seniors were the last graduating Class in Deadwood. The following year, Deadwood's High School building was converted into the new Lead-Deadwood Elementary and Middle School. In 2004 a brass plaque commemorating the DHS students was mounted on the side of the school building. Today the elementary school campus is all that remains of School District #02 in Deadwood Gulch."
